

FISCAL NOTE

HB 2662

March 18, 2004

SUMMARY OF BILL: Deletes the requirement that manufacturers of chemical products seeking to bid for state, county and municipal purchases must list a material safety data sheet (MSDS) for such chemical products on the Internet through the MSDS-SEARCH repository and would allow the MSDS to be posted on a website operated by the manufacturer or a trade association.

ESTIMATED FISCAL IMPACT:

Decrease State Expenditures - Not Significant

The bill will allow manufacturers of chemical products to post MSDS on their own website or that of a trade association as opposed to paying a fee to post the information on the MSDS-SEARCH website. To the extent this reduces the cost to the manufacturer, there is the potential that this reduction in cost will be passed on to the procuring agency. However, such decrease in state expenditures as a result of this is estimated to be not significant.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, appearing to read "James W. White". The signature is fluid and cursive, with the first name "James" written in a smaller, more compact script than the last name "White".

James W. White, Executive Director
